<http://www.lukemfg.com>

Our history at Luke Manufacturing, Inc. has been to offer Quality, Service and Manufacturing Expertise covering a broad range of technologies, including commercial milling and turning, special assembly techniques, and the ever advancing fields of medicine, electronics and aerospace.

As stated in our Quality Assurance Manual, Luke Manufacturing, Inc. has the capability to provide all of your precision machining and assembly requirements.

Our key assets include:

- Mori Seiki and Kitamura high-speed horizontal machining centers.
- Mori Seiki high-speed vertical machining centers.
- Mori Seiki lathe.
- 15,500 square foot manufacturing facility.
- Over thirty-five years of machining experience for each of our key personnel.

These key assets allow us to maintain the highest possible standards.

We feel that our experience, equipment, Quality Control and Just-In-Time delivery policy will combine to serve a multitude of your machining needs. We look forward to working with you.

Ed (Luke) Lukasunis  
President
